EXPERIENCE

Associate U.S. CFO Office, Finance Quality Assurance (QA) Testing

2025

RBC Capital Markets CFO Group - Toronto

- **QA Testing:** Leads two 5-person teams in QA testing for FRB regulatory reports (structure and liquidity reports), including sampling, workflow allocation, timeline management, and first/second-line reviews.
- **Policy & Procedures Review:** Leads annual review and publication of procedures documentation for 60+ regulatory reports across U.S. Finance ensuring compliance with FRB standards and internal policies.
- **Risk and Controls:** Oversees U.S. Finance report controls inventory and critical prioritization evaluation of reports while aligning with enterprise standards, executive leadership and governance committees.
- **Data Governance Communication:** Prepares and presents progress summary slides of assigned controls and governance tasks as part of monthly U.S. Finance Governance Committee (~100 members).
- **Awards:** CFO Group Performance Awards – Win as One Team: Awarded for delivering a critical 6-month regulatory reporting project that prevented the firm from significant financial and judicial penalties.

Associate U.S. CFO Office, Data Strategy and Analytics

2024

RBC Capital Markets CFO Group - Toronto

- **Operational Analytics:** Built an Excel workflow dashboard to monitor procedures documentation refreshes, identify delays, automate risk rating calculations and provide actionable insights to leadership.
- **Manual Adjustment Inventory:** Supported manual adjustments and report owner attestation collection and logging across reports, contributing to centralized tracking inventory and data validation processes.
- **Data Validation Support:** Performed validation and preprocessing of regulatory report data, checking variable formats and consistency to support data governance processes and maintain data quality.
- **QA Data Analytics:** Summarized weekly structure reports QA results by calculating error rates, tracking weekly trends, identifying outliers, and using results to support workflow decisions to ensure data accuracy.

Institutional Client Credit Management (ICCM) Transaction Associate

2023

RBC Capital Markets Global Credit – Toronto

- **Process Optimization:** Reduced compliance reporting volume by 100 – 200 cases weekly by developing an Excel automation tool which reduced manual processing for recurring tasks.
- **Compliance Monitoring:** Conducted compliance reporting on funds - including limit excess/reductions, ATE triggers, and NAV monitoring – and supported the KYC process as required.
- **Stakeholder Management:** Coordinated with global partners in Market Risk, Trading Credit Risk, Trading Documentation and Legal across London, New York and Toronto to resolve reporting issues.
- **Product Knowledge:** Maintained working knowledge of trading products (FX, swaps, securities finance) and non-trading products (trade finance, letters of credit, nostro limits) to support credit risk assessments.
